

2017 Knowledge Contribution 1

Programme

Thematic Priorities

Date Published

08/03/17

Project Type

Knowledge Contribution

Application Deadline

Capacity Building & Climate Innovation

Insights - 24.03.2017

Case Studies – 26.03.2017

Who should apply

This is open to Climate-KIC Partners or Climate-KIC Partner-led consortia. If you are interested in joining our partner network, please contact one of our local [Climate-KIC offices](#).

Call Details

The Thematic Priorities programme aims to assess innovation demand and challenges to identify where the climate-relevant impact potential lies. It is within this programme where Climate-KIC shapes the paths our community pursues for maximum climate mitigation and adaptation impact. It is where we look to strengthen our evidence base through studies and research assessing Theme-relevant challenges, market potential and barriers to innovation.

Knowledge contribution calls are the common mechanism by which Climate-KIC Themes invite Partners or other parties to contribute knowledge for the purposes of strategy development.

In this Knowledge Contributions 1 call the Decision Metrics & Finance (DMF) and Sustainable Land Use (SLU) themes will accept proposals.

Capacity Building Report	Decision Metrics and Finance
Innovation Insights	Decision Metrics and Finance, Sustainable Land Use
Case Studies	Sustainable Land Use

Knowledge contribution applications should focus on the priority areas targeted and listed in the relevant sections of the [Knowledge Contribution guidance](#).

Application Details

- Download the Knowledge Contribution [Proposal Form](#) and [Guidance](#).
- Submit completed applications via email to applications@climate-kic.org (Please refer to Guideline Annex 1, 2, and 3, and copy in your Theme Representative).
