

CALL FOR PROPOSAL

SCALER

Overview

Programme

Scaler

Date Published

23/08/2017

Project Type

Scaler

Application Deadline

13/10/2017

Who should apply

This is open to Climate-KIC Core or Affiliate partners. If you are interested in joining our partner network, please contact one of our local Climate-KIC offices.

What we are looking for

The Climate-KIC Scaler Programme is the final stage in the Innovation Framework and supports tried and tested innovations in growing to achieve greater overall climate mitigation and adaptation impact. Climate-KIC offers scaling services through both itself and also its community of Partners. Our Partners therefore have the opportunity to offer their scaling services as part of the Scaler Programme capacity and also to benefit from scaling support of their innovations. Consequently, there are two types of scaler projects that we are interested in:

1. Scaler Instruments – The tools, networks, knowledge, competencies and intellectual property (the “capacity”) through which innovations can be scaled.
2. Scaler Opportunities – The opportunities to provide support (delivered by Climate-KIC or through its Partners) to specific innovations so that these innovations can scale.

Application Details

- Download [Climate-KIC Thematic Priorities for 2017](#)
- Download [Call for Proposal](#) | [Proposal Form](#) | [Guidance](#)
- Submit completed applications via email to applications@climate-kic.org
- For further information, please contact your [local Climate-KIC office](#).

Other Programme Information

SPS will launch two new Flagships Programmes in conjunction with the Scaler Call. The Theme will publish the corresponding documentation and **Call for Proposals on 8th September 2017**.
