

# CALL FOR PROPOSALS

## SUSTAINABLE PRODUCTION SYSTEMS (SPS) FLAGSHIP PROGRAMMES

**Programme**

SPS Flagships **Loop** and **Re-industrialise**

**Date Published**

8 September 2017

**Project type**

Flagship

**Application Deadlines**

Expression of Interest: 9 October 2017, 09:00 CET

Full proposal, by invitation: 6 November, 09:00 CET

**Who should apply**

This call is open to consortia led by Climate-KIC Core and/or Affiliate partners interested and capable of helping us launch new flagship programmes in the Sustainable Production Systems (SPS) Theme. The evaluation process has two stages. In the first stage, we will assess the Expression of Interest from partners. Applications that pass to stage two will be invited to submit a full project proposal in November.

**New Flagships in brief**

- The Loop Flagship will focus on closing-the-loop of key urban materials systems such as cement, plastics and steel by working on non-End of Life (EoL) solutions as well as dematerialisation of urban demand.
- The Re-industrialise flagship will focus on 1) Helping cities and regions make the environmental transition away from carbon-intensive activities, and 2) addressing the social challenge posed by the accompanying economic transition.

Climate-KIC proposes a budget between approximately €1 million and €1.5 million for each flagship in 2018.\*

**Application Process and Next Steps**
