

# Inclusive Innovation for Climate Impact

Measuring impact, building capacity, empowering leaders

## Our Offering

From first steps to advanced strategies, we partner with you to drive inclusion forward

### Social Impact Assessment

A practical tool to evaluate your organisation's current level of social inclusion.

### Social Impact Advisory

Tailored guidance and strategies to embed inclusion in climate entrepreneurship and innovation.

### Capacity Building & Training

Custom workshops, expert sessions, and mentorship to strengthen your team's skills and leadership.

### Social Inclusion Resource Library

Access to tools, frameworks, and materials to support on going learning and implementation.

In today's climate innovation landscape, the most effective solutions emerge when diverse voices lead. At Climate KIC, we help organisations unlock this potential by embedding social inclusion into climate impact. We work with accelerators, corporates and start-ups to turn intentions into action – creating equitable climate solutions that transform our relationship with the planet.

## Social Impact Assessment Services

We assess your interest level and deliver targeted support to progress toward stronger, measurable impact.

### Stage 1 "Sensitive"

#### Building foundational awareness & assessment

Recognise and understand the principles of inclusion and equity

- Social Impact Assessment & report
- Post-assessment expert session
