& Community**

What You'll Get

- **Adaptable curriculum materials:** Receive adaptable curriculum frameworks and training materials for delivery under our programme licences.
- **Tools:** Access tools, handbooks, learning modules and a network of experienced mentors and coaches.
- **Impact:** Access impact tools and guidance to help ventures articulate their climate contribution.
- **Community:** Be part of a global community of entrepreneurship enablers sharing insights and experience.
- **Peer-to-Peer Learning:** Connect with fellow organisers to share insights and practical experience.
- **Branding:** Align your accelerator with a globally recognised, EU-affiliated brand and become part of a larger story.
- **Scaling Assistance:** Opportunities to be referred into relevant Climate KIC scaling instruments.

Community of ESOs

Join a community of **100+ ESOs** united by a **collaborative spirit**. Engage in **peer-to-peer exchanges**, sharing best practices, exploring collaboration & growth opportunities.

ESO Success Story - Cleantech Hub

Since 2018, Cleantech Hub has grown from a single initiative into a key ESO in Latin America, driving climate innovation across Colombia and beyond.

With annual ClimateLaunchpad, ClimAccelerator, and Climathon programmes, it actively involves private sector partners and investors to boost local climate technologies.

In 2025, Cleantech Hub will expand its reach across Central America, focusing on venture growth and investment access. Its success lies in diverse income streams and close collaboration with peers to share best practices and seize new opportunities together.

Licensed Programmes for ESOs

Climathon

POWERED BY:  ClimateKIC

A global movement where cities and citizens co-create practical climate solutions through local challenges and collaborative action, running since 2015.

 **30,000**
participants

 **1,000+** cities
 **600+** organisers

Climate Launchpad

POWERED BY:  ClimateKIC

The world's largest green business ideas competition, helping early-stage founders turn climate ideas into viable ventures through training, coaching and global pitching rounds, running since 2014.

 **15,000**
business ideas

 **40+** countries
 **5,000** startups incubated

ClimAccelerator

POWERED BY:  ClimateKIC

A structured acceleration programme that helps climate-positive ventures grow and scale through training, investor readiness and ecosystem connections, delivered via our global ESO network since 2010.

 **€3.5bn+**
capital raised externally

 **100+** programmes delivered
 **2,500+** startups accelerated
