

The Climate-KIC NetworkApp

Especially for the attendees of the Climate Innovation Event we have developed a mobile event application: the NetworkApp. Below you will find instructions on how to use and to download this app.

Get connected

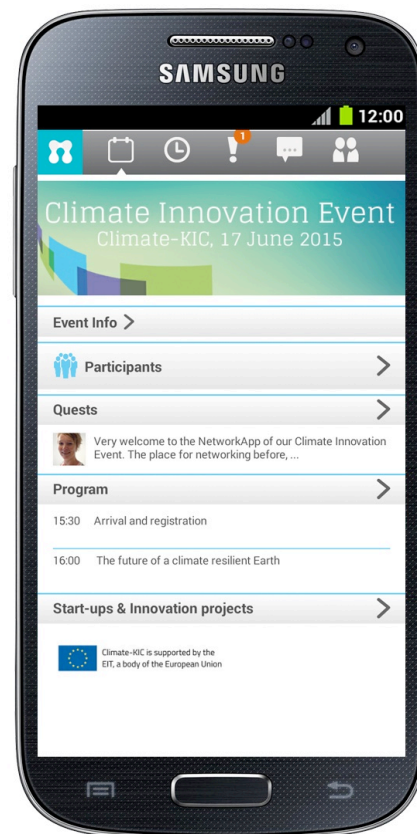

The Network app is a great tool to get in touch with the other attendees and the speakers. It gives you an overview from who is attending and you can ask questions via this app or make appointments.

Community building

The NetworkApp allows you to communicate with others before, during and even after the event. Use it to plan appointments with people you want to meet and follow up your new connections.

Personal programme

Based on your registration form, you can find your personal programme in the NetworkApp. It is easy to see which Break Out Session is in your schedule and via this app you can let us know at which pitch you would like to be present.

Download instructions

1. Go to **Appstore** (Apple) or **Playstore** (Android) - See below the URLs of the websites
2. Search for **Networkapp** and click on download
3. To use **Networkapp**, you have to register via **LinkedIn** or **e-mail**.
4. When logging in use the unique event code: **CIE2015**
5. Now you can use the app! Ask questions, chat and get in touch with the other attendees!
