This document covers applications for subgrant funding under
Horizon Europe, grant number: 101093942.

About this document

This document provides a view-only version of the P2R call 1 application form. Please note that this may not be used to apply. Per the call document, submissions outside of the submission platform, Plaza, will not be accepted.

The numbered **Bold Headers** indicate the tab names in the application form.

The *italicized text* indicates instructions/help text.

*Indicates a required quest

	Climate proofing of critical public infrastructure						
	Land use and food systems						
	Health and human wellbeing						
	Local economic systems						
<p>24. *From the KCS areas above, to what extent has your region/ community had progress in addressing them? Please specify the areas with progress (water management, ecosystem and nature based solutions, critical infrastructure, etc).</p>	Text box. Max 5000 characters.						
KEY ENABLING CONDITIONS (KEC)							

<p>25. In the context of climate adaptation, how much of a priority are the following Key Enabling Conditions (KEC) for your region/community?</p> <p><i>Choose the priority for each KEC. More than one can have the same priority. A higher number is a higher priority (i.e. 5 is the highest priority). 	Knowledge and data						
	Governance, engagement, and collaboration						
	Finances and resources						
	Capabilities and skills						
	Behavioural change						
	Experimentation, strategic learning, and reflective adjustment						
<p>26. Are these KECs currently being addressed as priorities? If so, please briefly describe and specify the areas with progress (knowledge and data; governance, engagement, and collaboration; finances and resources; etc.): If not, please briefly describe whether you see them as main barriers for actional</p>	<p>Text box. <p>27. *From the areas above, to what extent has your region/community had progress in addressing them? Please specify the areas with progress (knowledge and data; governance, engagement and collaboration; finances and resources; etc.)</p>	<p>Text box. <i>Max 5,000 characters.</i></p>						
<p>Planning</p>							
<p>28. *Considering your region/community situation, please specify how strongly you agree with the following statement.</p>		<p>Strongly disagree</p>	<p>Disagree</p>	<p>Neither agree nor disagree</p>	<p>Agree</p>	<p>Strongly agree</p>	<p>0 - N/A Do not Know</p>
	<p>Regional planning includes climate risk screening, climate risk assessment, climate risk reduction measures (identification, prioritization), evaluation and learning, which results in a comprehensive climate plan.</p>						
	<p>Regional plans take into account new climate data, scenario planning exercises, and the range of uncertainties about how climate will change over time</p>						

	<p>(e.g., in terms of maximum and minimum extremes in terms of temperature, precipitation, sea-level rise, water availability etc.).</p>						
	<p>Regional planning systematically collects and reviews available information about regional strengths and weaknesses, as well as barriers to building climate resilience and the specific environmental, financial and social systems that enable the adoption of feasible adaptation solutions.</p>						
	<p>Regional planning or adaptation strategy allows for a “room for experimentation” approach, using systemic policy instruments and portfolio management that consider the key enabling conditions of the EU mission (e.g. experimental approaches may include interventions like regulatory sandboxes, innovation platforms, innovative public procurement models, policy</p>						

	labs, or other niches for experimentation).						
Coordination							
29. *Considering your region/community situation, please specify how strongly you agree with the following statement.		Strongly disagree	Disagree	Neither agree nor disagree	Agree	Strongly agree	0 - N/A Do not Know
	Region has a designated authority/institution responsible for coordinating plans and actions to address climate change adaptation.						
	The coordinating body adequately avoids the creation of silos and ensures cross-departmental /ministerial coordination in climate adaptation planning and implementation.						
	There is a dedicated institutional mechanism for effective synergies between territorial governance levels.						
	Coordinating authority operates within an effective multi-level governance structure that appropriately distributes decision-making power across different levels when it comes to climate						

	change adaptation interventions.						
Stakeholder							
30. *Considering your region/community situation, please specify how strongly you agree with the following statement.		Strongly disagree	Disagree	Neither agree nor disagree	Agree	Strongly agree	0 - N/A Do not Know
	The climate risks encountered by regions, along with their associated adaptation strategies, are given importance and actively discussed in regional political debates.						
	Climate adaptation planning involves engagement with all relevant stakeholders in climate-sensitive sectors, e.g. citizen groups, civil society organizations, climate experts, industry/sector representatives (public and private), and political leaders.						
	Regional climate adaptation process and activities allow for the engagement of multi-sectoral stakeholder groups (from planning to implementation), including						

	<p>their active participation in the co-creation of and commitment to a joint vision for a climate resilient future.</p>						
	<p>Based on a comprehensive regional stakeholder mapping, the participation of vulnerable groups is sustained throughout the planning and implementation of climate adaptation measures.</p>						
Institutional							
<p>31. *Considering your region/community situation, please specify how strongly you agree with the following statement.</p>		<p>Strongly disagree</p>	<p>Disagree</p>	<p>Neither agree nor disagree</p>	<p>Agree</p>	<p>Strongly agree</p>	<p>0 – N/A Do not Know</p>
	<p>Comprehensive regional stakeholder mapping has been conducted, and stakeholder engagement involved citizen groups participation in deciding measures to tackle the effects of climate change in your region.</p>						
	<p>Integrating climate change into planning is overseen by individuals with in-depth knowledge of integration and or mainstreaming processes.</p>						

	<p>Region has the capacity to assess risks and vulnerabilities, including complex, cascading and compound risks associated with climate change.</p>						
	<p>Region has the capacity to design and implement public policies/interventions with the objective to promote a just transition to a climate-resilient economy.</p> <p>See https://www.eea.europa.eu/publications/just-resilience-leaving-no-one-behind for more information.</p>						
Financial							
<p>32. *Considering your region/community situation, please specify how strongly you agree with the following statement.</p>		<p>Strongly disagree</p>	<p>Disagree</p>	<p>Neither agree nor disagree</p>	<p>Agree</p>	<p>Strongly agree</p>	<p>0 – N/A Do not Know</p>
	<p>A dedicated budget exists to implement all (priority) climate change adaptation measures identified (and costed) in risk assessments.</p>						
	<p>Regional authority understands all external sources and instruments, of funding and financing, and is actively developing business models to facilitate adaptation investments.</p>						

	<p>Region has developed an Adaptation Investment Plan, which sets out total investment needs, envisioned roles of the public and private sector, and priorities for bankable investments within the available fiscal space.</p>						
	<p>Regulations, programs/policies, or initiatives are in place to encourage the public and private sector to channel resources toward climate adaptation plans and the implementation of transformative actions.</p>						
Climate Information							
<p>33. *Considering your region/community situation, please specify how strongly you agree with the following statement.</p>		Strongly disagree	Disagree	Neither agree nor disagree	Agree	Strongly agree	0 - N/A Do not Know
	<p>Regional decision-making activities include climate information and real-time observations on climate trends and variability.</p>						
	<p>Climate information (forecasts, projections, information on responses) is readily accessible via information-sharing platforms or networks (e.g. for screening).</p>						

	<p>The latest climate information, including new data, is tailored for effective decision-making and it is comprehensible to relevant stakeholders.</p>						
	<p>All relevant data and knowledge supporting a just transition to climate resilience is being integrated in support of decision making.</p>						
<p>Monitoring, Evaluation, and Learning</p>							
<p>34. *Considering your region/community situation, please specify how strongly you agree with the following statement.</p>		<p>Strongly disagree</p>	<p>Disagree</p>	<p>Neither agree nor disagree</p>	<p>Agree</p>	<p>Strongly agree</p>	<p>0 - N/A Do not Know</p>
	<p>Regional authorities are tracking climate adaptation progress and challenges against all relevant climate hazards.</p>						
	<p>Regional authorities are tracking climate adaptation progress and challenges of all key sectors and challenges of all key community systems and key enabling conditions.</p>						
	<p>Adaptation plans and objectives are periodically reviewed in alignment with</p>						

	the evaluation of existing actions.						
	Regional adaptation strategy includes indicators for tracking catalytic impact (e.g.- changes beyond the direct area of influence, including shifts or changes in regional policies).

5 IMPACT

Commitment	
36. *Describe the region/community's alignment with the EU Mission Adaptation to Climate Change and P2R's objectives/approaches.	Text box. <i>Maximum 5000 characters.</i>
Stakeholder Engagement	
37. *Describe the region/community's engaged stakeholder typology (e.g. public, private, civil society) and the planned stakeholder engagement approach.	Text box. <i>Maximum 5000 characters.</i>
Justice	
38. *Describe the region/community's approach to the various dimensions of climate justice, including but not limited to ethics, sustainability practices, gender, migration, marginalised groups, economic inequality, physical accessibility, digital open access, unevenly distributed environmental impacts, and accountability, including environmental debt and reparations.	Text box. <i>Maximum 5000 characters.</i>
Need for Support	
39. *Describe the region/community's vulnerability, limited resources, and/or low adaptive capacity to climate impacts.	Text box. <i>Maximum 5000 characters.</i>
Knowledge Sharing	

<p>40. *Describe the region/community’s planned knowledge sharing activities (e.g.: participating in expert conferences, producing written content, organizing inter-regional working groups or communities of practice) beyond the target region/community.</p>	<p>Text box. <i>Maximum 5000 characters.</i></p>
<p>Resources</p>	
<p>41. *Describe the region/community’s resources mobilization plan beyond the subgrant budget.</p>	<p>Text box. <i>Maximum 5000 characters.</i></p>
