Housekeeping

- This session is being recorded.
- Recording and slides will be available on our website.
- Questions are welcome, we will address some as part of the panel discussion.
- Please share your feedback with us at the end!

Agenda

- Welcome
- What is carbon farming?
- Recap on the EU Carbon Farming Summit.
- High-level takeaways.
- Panel discussion with Q&A.
- Feedback and close.

Today's special guests

SPEAKERS

Sheila Damos
The Southern Lights

Lorcan Bannon
Tirlán

Tessa van der Voort
Nutrient Management Institute

Saskia Keesstra
Climate KIC

Stewart Gee
Climate KIC

What is carbon farming?

- **MAINTAIN:** To avoid future emissions by maintaining existing carbon stocks.
- **REDUCE:** To reduce emissions that cannot be avoided.
- **REMOVE:** To create new, long-term carbon stores.

Carbon farming in practice?

Hedgerows

Reduced fertiliser

Silvopasture

Peatland restoration

Cover crops

Crop roots

CREDIBLE
EU carbon farming

EUROPEAN CARBON FARMING SUMMIT

Organisers: ClimateKIC, SAE, CREDIBLE, An Roinn Talmhaíochta, Éireannach agus Bia, METEOR IRELAND, Fáilte Ireland, Agricarbon, BASF, life, I-BEC

European Carbon Farming Summit

Supporting high-level conversations to shape up robust carbon farming markets and policies. It represents a space for sharing knowledge and experiences, upscaling solutions and enabling the multiplication of climate actions across the EU.

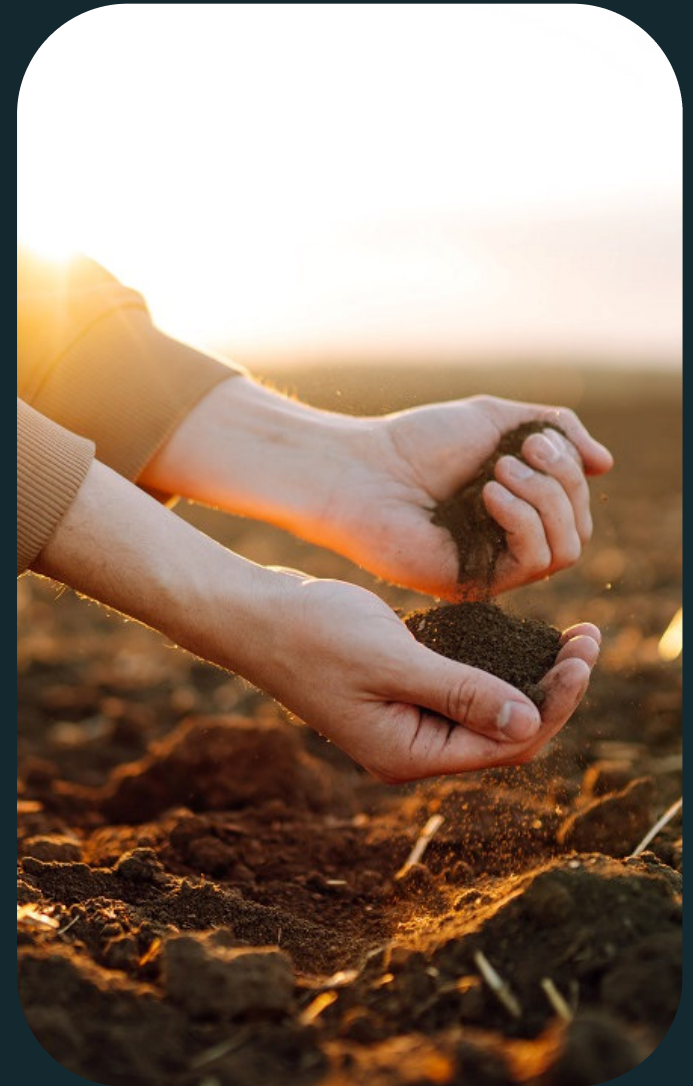

EUROPEAN
CARBON FARMING
SUMMIT

5 key takeaways

1. We need to listen to farmers.
2. Bridge the gap between science and practice.
3. Carbon farming must go beyond carbon.
4. Finance and policy have to align.
5. We're not always speaking the same language.

What's next?

- EU Carbon Farming Summit report with recommendations.
- Next Summit date, in March/April 2026 (location to be confirmed).

Let's hear it from them!
